BODY TRAINING SYSTEMS (BTS)

New routines coming soon!

Body Attack – Cardiovascular interval training that combines high intensity aerobics, strength and stabilisation exercises. A rapid calorie burner that delivers fast improvement in general endurance and an increase in overall body strength.

Body Balance – Invigorates and tones, releasing tight, tense muscles leaving you in a state of energized calm. BodyBalance is a dynamic yoga-based stretch programme that leaves you feeling relaxed and renewed to create a holistic workout that brings the body, mind and soul into a state of balance and harmony.

Body Combat – Combines powerhouse moves and stances, into a ‘take-no prisoners’, adrenaline-pumping routine. It is an empowering, athletic workout that will have you “fighting-fit” in record time! Body Combat reduces stress, improves general well-being and vitality whilst encouraging assertiveness and self-confidence.

Body Jam – An addictive fusion of dance and aerobic moves to a blend of hip hop, funk and Latin music.

Body Pump – A non-impact class designed to give your body a complete workout using weights to powerful motivating music. All ages and fitness levels can participate in the same class, you simply use heavier weights as you get fitter.

Body Step – Step up the intensity not the complexity of your workout. Bodystep delivers inspiration to achieve results through the use of exciting and powerful music with inspirational instructors. It improves muscle strength and endurance with specific conditioning placed between bouts of aerobic activity.
